

UrbanCart Return and Refund Policy

Applies to all orders placed on [urbancart.pk](#), WhatsApp and Instagram

Effective date: 2026-07-01

1. Standard Return Window

Customers may request a return within 14 days of delivery for most products. The 14 day period is counted from the date the order is marked as delivered in our system, not from the date the order was placed.

The product must be returned in its original packaging, with all accessories, manuals, cables and free promotional items included. Products that are returned incomplete may be refused or may be subject to a deduction equal to the retail value of the missing items.

2. Shorter Return Window for Audio and Personal-Use Products

For hygiene reasons, headphones, earphones, earbuds, wireless audio products, smart watches, fitness bands and any product worn on the body may only be returned within 7 days of delivery.

This 7 day limit is strict. A return request for headphones or earbuds made after 7 days from delivery will not be accepted under the standard return policy. If the product is faulty rather than unwanted, it is handled under the warranty policy instead, which has a much longer coverage period.

Audio products may only be returned if the seal on the packaging is intact. An opened pair of earbuds cannot be returned simply because the customer changed their mind.

3. Products That Cannot Be Returned

The following are not eligible for return under any circumstances: items marked as final sale or clearance, gift cards, downloadable or digital products, consumable items, and products that have been physically damaged by the customer after delivery.

Software, activation codes and subscription products cannot be returned once the code has been revealed or redeemed.

4. How to Request a Return

A return is requested by contacting UrbanCart support with the order number, which is in the format UC-10452. Support will confirm eligibility and arrange a pickup with our courier partner.

Return pickup is free of charge when the return is caused by UrbanCart: a damaged item, a wrong item, or a defective product. When the return is a change of mind, a pickup charge of Rs. 300 is deducted from the refund.

5. Refund Processing Times

Once the returned product has been received and inspected at our Lahore warehouse, the refund is approved within 2 working days.

Refunds to a bank account or debit card are credited within 7 to 10 working days. Refunds for cash on delivery orders are issued by bank transfer, and the customer must provide their account details. Store credit refunds are applied immediately on approval.

6. Damaged or Incorrect Items on Arrival

If a product arrives damaged, or the wrong product was delivered, the customer must report it within 48 hours of delivery with photographs of the item and the outer packaging.

Damaged and incorrect deliveries are always escalated to a human support agent. They are never resolved automatically, and the customer is not charged any pickup fee. A replacement is dispatched as soon as the report is verified.

7. Exchanges

A product may be exchanged for a different variant of the same product, such as a different colour or storage size, within the applicable return window, provided the replacement variant is in stock.

If the replacement variant is more expensive, the customer pays the difference. If it is cheaper, the difference is refunded as store credit.
