

UrbanCart Shipping and Delivery Policy

Nationwide delivery across Pakistan

Effective date: 2026-07-01

1. Delivery Coverage

UrbanCart delivers to all major cities in Pakistan, including Lahore, Karachi, Islamabad, Rawalpindi, Faisalabad, Multan, Peshawar and Quetta. We also deliver to most smaller towns through our courier partners.

Yes, we deliver to Lahore. Lahore is a Zone A city and is also the location of our main warehouse, so it receives the fastest delivery times we offer.

2. Delivery Timelines by Zone

Zone A covers Lahore, Karachi, Islamabad and Rawalpindi. Orders to Lahore are delivered within 1 to 2 working days. Orders to Karachi, Islamabad and Rawalpindi are delivered within 2 to 3 working days.

Zone B covers Faisalabad, Multan and Peshawar, with delivery in 2 to 4 working days. Zone C covers Quetta and remote areas, with delivery in 4 to 6 working days.

Working days are Monday to Saturday. Sundays and public holidays are excluded from all delivery estimates.

3. Order Processing

Orders confirmed before 4:00 PM on a working day are dispatched the same day. Orders confirmed after 4:00 PM are dispatched the next working day.

High value orders above Rs. 100,000 require a confirmation call before dispatch. This is a fraud-prevention measure and typically adds a few hours to processing.

4. Delivery Charges

Delivery is free for all orders above Rs. 5,000. For orders below Rs. 5,000 a flat delivery charge of Rs. 250 applies.

Cash on delivery is available nationwide for orders up to Rs. 150,000 and carries an additional handling fee of Rs. 150. Orders above Rs. 150,000 must be prepaid.

5. Tracking an Order

A tracking number is sent by SMS and email as soon as the order is handed to the courier. Order status can also be checked at any time by giving the order number, which is in the format UC-10452, to our support team or assistant.

The status values used are pending, confirmed, processing, shipped, out for delivery, delivered, delayed, cancelled and returned.

6. Delayed Deliveries

Deliveries can be delayed by weather, public holidays, political situations or courier capacity during sale periods. When a delay is known, the order is marked as delayed and the reason is recorded against the order.

If an order is more than 3 working days past its expected delivery date, it is treated as a serious delivery issue and is escalated to the operations team for manual follow-up with the courier.

7. Failed Delivery Attempts

Our courier partners make up to 3 delivery attempts. If all 3 attempts fail because the customer is unreachable, the order is returned to our warehouse.

For a prepaid order that is returned in this way, a refund is issued minus the actual delivery cost. Repeatedly refused cash on delivery orders may result in the customer being restricted to prepaid orders only.
